

2020 PZ MATH CAMP

2020 Application Form

Name: _____

Email: _____

High School (Name and Town/State):

Circle Current Status: freshman sophomore junior other
(if other, explain) _____

Home Address: _____

Contact Phone Number: _____

Parent/Guardian Name and Phone Number: _____

Current GPA: _____

Please check here if your combined family income is less than \$60,000, and you would like to be considered for free admission to camp:

How did you hear about PZMC? (If online, please be specific, for example, the AMS website).

Please list all high school or college-level math classes you've taken, and the grade received in each class.

Please list and describe any awards and honors (including math competitions) you've received, listed in chronological order.

(Example: June 2012, President's Honor Roll: an honor recognizing students who maintain a GPA of 3.5 or above at the end of each semester)

Please list any extra curricular activities you've participated in (especially math related ones), listed in chronological order.

(Example: Summer 2012, Williams College Math Camp, a summer residential math enrichment program for talented high school students.)

Please list any standardized aptitude tests you've taken including but not limited to SAT, ACT, Pre-SAT (please indicate if the score is for a subject area like Math or if it is cumulative). *Please list verbal, math, and critical reading, and percentile scores.*

Example: SAT: Verbal 610 (80th percentile), Math 650 (85th), Critical Reading 600 (84th)

All application materials must be received by **Friday April 24th, 2019.**

Questions: Allison.Pacelli@williams.edu

Application Checklist

Completed Application Form Above

Statement of interest (2 pages): Why do you want to attend PZMC? Please include information about your mathematical background and interests, and why you think the camp will be a good fit for you.

Math Challenge Questions: Submit clear and detailed solutions for as many questions as you can. We do not necessarily expect full solutions for every question. We're interested in your approach to the question as well as your ability to communicate your ideas clearly and effectively. Correct answers without explanations will not be considered. Please type up your solutions, though you may supplement with pictures or diagrams if necessary.

Recommendations: Two recommendations (one academic and one personal) are required. Be sure to give each recommender a recommendation form to complete and submit; the forms are available for download on the PZMC website. The recommenders should send their letters directly to PZMC. One letter should address your mathematical abilities and accomplishments, while the other letter (from a teacher, mentor, or counselor) should address your personal character. Both letters should address your ability to contribute positively to the PZ Math Camp community.

Transcript. An unofficial transcript is fine.

All applications must be submitted online.

Letters of recommendation should be submitted directly from recommenders.
